Moaaz Magdy

Data & Business Analyst | Cairo, Egypt

mms-21.github.io · LinkedIn · GitHub · moaz.magdy220@gmail.com

PROFILE

Business analyst working with financial, inventory and logistics records, recurring reporting and dashboards. Builds customer analytics projects and practical AI tools that make analysis easier to repeat and verify.

EXPERIENCE

Business Analyst · Al-Amal Trade & Distribution

December 2024 - present

Reconcile 1,000+ financial, inventory and logistics records each month. Built 10+ recurring reports. Alongside this role, freelance work includes sales and HR dashboards and reporting automation.

Career-readiness collaboration · Mattlob

September 2026 - present

Collaborate on practical activities including role matching, CV review and workplace skills.

Customer service internships · QNB / Banque Misr

QNB: Summer 2020 · Banque Misr: Summer 2021

Gained exposure to banking operations, customer requests and the care required when handling financial information.

SELECTED PROJECTS

Customer value & churn analysis

Python · pandas · scikit-learn · BG/NBD · Gamma-Gamma

Combined RFM segmentation, customer lifetime value modelling and churn risk to identify retention priorities. View case study

analytics-agent / ai-tell

Python · FastAPI · React · TypeScript · Electron

Built an analytics assistant with deterministic tools and a report quality gate, and released a desktop tool for exploring document authorship signals. View projects
